Introduction

Materials in this resource list support Edmonton Public Schools' Sexual Orientation and Gender Identity policy and administrative regulations and demonstrate the District's commitment to provide safe, welcoming, inclusive, and equitable environments, which are free of discrimination and harassment for all students, staff, and families who identify or are perceived as being lesbian, gay, bisexual, transgender, transsexual, two-spirited, queer, and/or questioning. These resources meet the District's and Alberta Education's criteria of presenting diverse points of view to achieve the programming and curricular needs of *all* students by recognizing diversity and promoting respect in the K-12 program of studies. This second edition was revised in January 2014.

The materials selected for inclusion in this guide have received positive reviews in critical review journals (such as *School Library Journal*, *Booklist*, *Kirkus*, and *Canadian Review of Materials Magazine*) and/or recognition by awards for youth literature (such as the Governor General's Award), and those administered by the Canadian Children's Book Centre, the Canadian Library Association, the American Library Association, and others. A concerted effort has been made to include high quality age-appropriate materials for a wide variety of students and learning styles. We have also placed emphasis on newer releases, landmark resources, and as much Canadian content as possible. Many of the following resources can be borrowed for preview purposes from the Edmonton Public Library and the Herbert T. Coumts Library in the Faculty of Education, University of Alberta.

Settrington, Ken

Branded by the Pink Triangle (2013)

ISBN: 978-1926920962

Grades 9-12

This book blends historical research, first-person accounts, and individual stories about the little-known discriminatory treatment of gay men by the Nazi regime in Germany, when German “purity” was defined by heteronormative sexuality and childbearing as much as by race and religion, and when variant sexuality could be a death sentence. Gay men, and those so perceived, were forced to wear a pink triangle to identify their “crimes” when they were sent to the Nazi concentration camps along with Jews and other minorities (lesbians wore a black triangle labelling them “anti-social” for their refusal to marry and bear children). The pink and black triangle symbols have since been reclaimed and repurposed as marks of LGBTQ rights, freedoms, and community.
